

info@fentanylfreeoregon.org

This is a lethal dose of fentanyl

You won't see it, taste it, or smell it

HOW DO I RECOGNIZE AN OVERDOSE?

- Unconscious, unresponsive
- Small “pinpoint” pupils
- Difficulty breathing
- Choking, gurgling or snoring
- Blue fingernails or lips

WHAT SHOULD I DO?

CALL 911 IMMEDIATELY

- Administer naloxone/Narcan (used to reverse overdoses)
- Perform CPR • Try to keep the person awake • Move the person on their side to prevent choking

MEDICAL FENTANYL SAFELY TREATS PAIN IN A HOSPITAL.
STREET FENTANYL IS AN UNPREDICTABLE KILLER.
